

FUNAN SHOPPING MALL

WALLS

COMMERCIAL

PROJECT ID

Capital Land's brand new concept of shopping mall. Situated just across City Hall MRT station, this 887.000m² shopping mall combines retail, office, co-living and urban farming functions.

YEAR

2019

LOCATION

Singapore

PROJECT SIZE

2.000m²

ARCHITECT

Woods Bagot
RSP Architects Planners and Engineers

REQUIREMENTS

A premium soundproofing wall system was required for the internal environment.

Soundproofing solution to mitigate noise transmission between spaces with multiple functions.

SOLUTIONS

- **TECSOUND** acoustic insulation offers excellent levels of acoustic performance in construction system, due to the high-density & thin thickness property, it effectively absorbing air-borne noise while hardly affecting the system's thickness, and save more space for interior environment.
